National Frameworks Design Solutions Superior Outcomes

The Redcar and Cleveland Leisure and Community Heart

Scape Group is a public sector owned built environment specialist

Through our suite of OJEU compliant frameworks and innovative design solutions, we work to address the estate and infrastructure challenges faced by the public sector.

By managing nationally and delivering locally, we have created highly efficient and measurable processes that help our clients to improve their built environment, secure value for money, stimulate local economic growth and to deliver more for their communities.

DELIVERY

Driving efficiency and social value into procurement

Offering a full suite of OJEU compliant frameworks, Scape Procure supports the entire lifecycle of your built environment. From strategic asset management through to project delivery and occupancy, we offer the UK's most expansive, performance managed and rapidly deployed solutions. By bringing together the strongest delivery teams, Scape Procure facilitates measurable time, cost, quality and community benefits on every project.

The East Midlands Property Alliance (empa) was formed by Local Authorities to improve the delivery of property services to their communities. Through effective collaboration and sharing knowledge to develop solutions for common issues, empa brings economies into procurement and certainty on cost and timescales.

Bournemouth University

Scape Design

Pioneering intelligent design

We believe environments can be transformed with innovative and intelligent design. Through unparalleled sector knowledge and by designing better building solutions, Scape Design succeeds in delivering some of the best spaces in the UK. Our wealth of experience in efficient construction techniques, with particular experience in education and public buildings, guarantees buildings that successfully meet all requirements.

Flexible and permanent high quality learning environments

Catering for any circumstance, Connect configures and optimises schools by delivering permanent and independent buildings in 1, 2, 3, 4, 6 and 8 classroom layouts in KS1, KS2 and secondary school designs.

Transforming unusable and unlettable buildings

Renovate transforms buildings that are otherwise unusable and unlettable into high quality spaces. Renovate is an exciting way to increase the value of your assets – creating inspiring environments and fresh income.

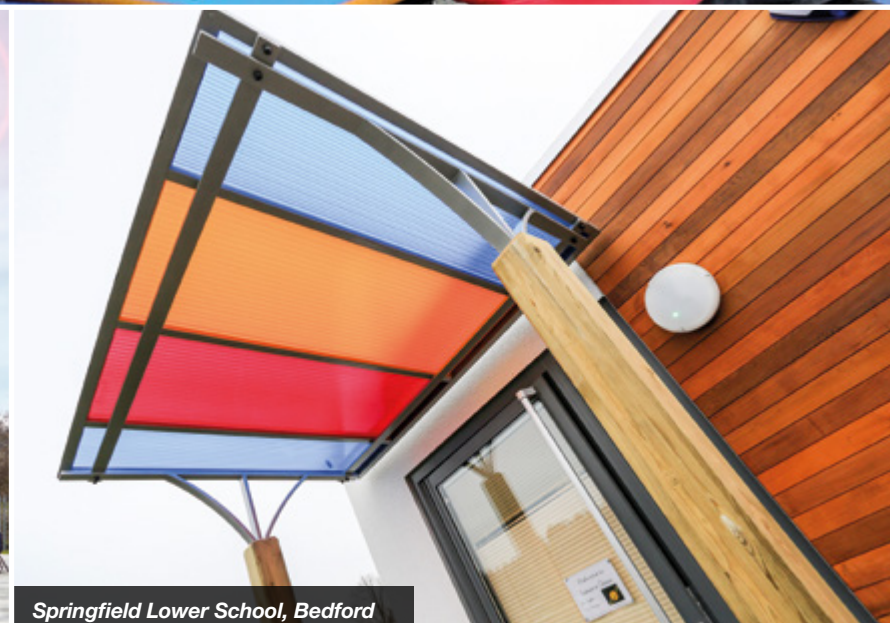

The market leader in delivering pre-designed education buildings

A Joint Venture between Scape Group and Willmott Dixon, Sunesis delivers quality learning environments with certainty of cost and timescale, as well as an array of personalisation options.

Oakfield Primary School, Rugby

Springfield Lower School, Bedford

Investing in the future of communities

Scape Reinvest is a unique social investment fund. The objective behind the initiative is to return modest project surpluses to worthwhile community projects across the UK.

Reinvest is focused on supporting young people and entrepreneurship and is accessible via the Scape Reinvest Communities Fund.

The Communities Fund has been designed to create lasting social change with measurable social improvements, that build sustainable futures for both young people and businesses locally.

Building certainty into private sector construction

Using the same processes, high quality delivery partners, measurable KPIs and defined contractual commitments as our public sector frameworks, Scape Venture injects time and cost certainty into private sector construction projects.

Using the Scape procurement model helps the private sector deliver more successful projects – without additional cost – whilst demonstrating it is contributing positively to society through significant CSR and reputational benefits.
